What's Inside

This catalogue covers every machine currently available for hire from Floormaster. Each listing covers what it does, what it is built for, and what makes it the right pick for the job. Call your nearest store to check availability and current rates.

1	Carpet & Upholstery Extraction Spotters, canister and heavy duty extractors	03
2	Floor Scrubbers Walk-behind and ride-on, from tight corners to 3,000m ²	04
3	Floor Polishers & Burnishers Suction, orbital and single disc machines	05
4	Wet & Dry Vacuums Twin and single motor wet/dry pick-up	06
5	Specialist Equipment Floor prep, pressure washing & drying	07

1 Carpet & Upholstery Extraction

From quick spot spotting to full commercial carpet cleans, these five extractors cover every scale of job.

NOBLES

Portable Spot Extractor

A compact spotter for spills, upholstery and auto detailing, built to catch stains before they set. The durable metal hand tool outlasts plastic equivalents for a longer service life.

- Handles spills & upholstery
- Durable metal hand tool
- Easy one-person handling

SANTOEMMA

Sabrina Maxi Carpet Extractor

A heavy duty carpet and upholstery extractor for deep commercial cleaning, with twin vacuum motors and large 30 litre solution and recovery tanks. Splits into two pieces for easy transport between jobs.

- Twin vacuum motors
- 30L solution & recovery tanks
- Splits for easy transport

TENNANT

EH5 Heated Canister Carpet Extractor

A durable, versatile deep cleaning extractor with standard tools and two pressure options. Choose low pressure extraction for routine maintenance or high pressure cleaning with heat for tougher jobs.

- Heated high pressure option
- Low pressure mode for routine care
- Standard tool kit included

SANTOEMMA

Carpet Cleaner

Professional grade extraction technology combining powerful suction with high temperature water delivery for deep seated dirt and stains. Durable components and user friendly controls reduce water and detergent use while protecting carpet fibres.

- High temperature water delivery
- Reduces water & detergent use
- Protects carpet fibres

POLIVAC

Predator MK2

Built for professional cleaners who need reliable, high performance extraction without unnecessary complexity. A strong upgrade from entry level machines, with consistent pressure and strong vacuum recovery for daily commercial work.

- Consistent extraction pressure
- Strong vacuum recovery
- Residential & commercial use

2 Floor Scrubbers

Walk-behind and ride-on scrubbers for hard floors, from tight corners to large open areas.

TENNANT

T3 Walk-Behind Scrubber

A quiet, chemical-free ec-H₂O or foam-activated FaST scrubber with a 500mm scrub path, ideal for noise-sensitive sites such as hospitals and aged care. Hygienic tanks, tool-free brush and squeegee changes, and a self-adjusting squeegee keep floors dry fast. Available in disk (17" or 20") or traction drive (20") configurations.

- Chemical-free ec-H₂O / FaST scrubbing
- 68.5dB, suits noise-sensitive sites
- Tool-free brush & squeegee changes

KÄRCHER

BR 30/4 C Scrubber Drier

As easy to manoeuvre as an upright vacuum, with ten times the contact pressure of mopping and a 1,500rpm roller brush. Its low profile reaches under gondolas and fixtures, leaving floors dry and non-slip immediately after cleaning.

- Upright, vacuum-style handling
- Scrubs & dries in one pass
- Great for small to mid-size areas

POLIVAC

Shark Low Profile Scrubber

A low profile scrubber built for awkward, hard-to-reach places. Its 72.5cm long nose and 14.5cm low profile design get under gondolas, checkouts and fixtures that ordinary machines cannot reach.

- 14.5cm low profile design
- 72.5cm long nose reach
- Ideal for supermarkets & kitchens

COMAC

Innova 55B Ride-On Scrubber

A compact ride-on scrubber that replaces a walk-behind machine on maintenance cleaning of areas up to 3,000 square metres. Automotive-style driving wheel gives tight manoeuvrability around obstacles, with an Eco ON/OFF system that stops the brush and water flow when idle.

- Covers up to 3,000m²
- Automotive-style manoeuvrability
- Eco ON/OFF idle system

3 Floor Polishers & Burnishers

Suction polishers, orbital machines and single disc units for day-to-day floor care and finishing.

POLIVAC

PV25 Suction Floor Polisher

Ensures efficient cleaning and polishing for vinyl, terrazzo, marble and timber floors. Built for durability and smooth operation in daily commercial use.

- Suits vinyl, terrazzo, marble & timber
- Smooth, stable operation
- Built for daily commercial use

CLEANSTAR

Polystar 15 Orbital Floor Polisher

Its orbital action glides smoothly across the surface for consistent results while minimising swirl marks and operator error, making it forgiving for less experienced operators. Suits commercial cleaners, schools, healthcare sites and retail spaces that need floors looking sharp every day.

- Orbital action minimises swirl marks
- Forgiving, low training curve
- Suits daily-use commercial sites

VIPER

DS350 Single Disc Machine

A versatile, easy-to-use single disc machine for daily floor cleaning and polishing. Handles scrubbing, polishing and light stripping with a balanced design that is comfortable to operate and easy to manoeuvre, well suited to teams with minimal training.

- Scrubbing, polishing & light stripping
- Compact for storage & transport
- Minimal training required

4 Wet & Dry Vacuums

Twin and single motor wet and dry vacuums for spills, floods and general clean-up.

CLEANSTAR

90L Twin Motor Wet & Dry Vacuum

A 2,000W twin motor vacuum with a 90 litre tank, built for large-scale wet and dry clean-up in warehouses, construction sites and car washes.

- 2,000W twin motor
- 90L tank capacity
- Wet & dry pick-up

LAVOR

Professional Wet & Dry Vacuum

A professional grade wet and dry vacuum for general commercial clean-up, spills and site maintenance. Ask in-store for tank capacity and configuration options for your job.

- Wet & dry pick-up
- Commercial duty build
- Suits general site clean-up

5 Specialist Equipment

Purpose-built machines for floor prep, pressure washing and fast drying.

TOMCAT

EDGE 20ST Floor Machine

An edge-free sanding, polishing and stripping unit that brings terrazzo and marble floors back to new. The chemical-free dry strip approach is safer for the operator, and square corners reach into spaces round pads miss. Runs at 1725rpm for quiet, low-dust operation, and can also be used wet.

- Chemical-free dry strip
- Square corners reach into edges
- Quiet, low-dust 1725rpm motor

KERRICK

Thunderwash Electric Pressure Washer

A single phase electric pressure washer with vario and turbo nozzles as standard, automatic stop and re-start, and a portable trolley. Built-in detergent injection and a long life brass pump suit workshops and general trade cleaning.

- Vario & turbo nozzles included
- Automatic stop / re-start safety
- Detergent injection & brass pump

XPOWER

Utility Air Mover

A powerful, compact air mover for flood restoration, wet carpets, freshly painted walls and damp floors. Designed for maximum airflow to speed up drying time and keep jobs moving, while staying lightweight and easy to position.

- High airflow for faster drying
- Suits flood & carpet restoration
- Lightweight and easy to position
